

# Couples Float Agreement

In order to ensure respectful use of our space as a place of healing, reflection and connection – whether with one’s self or with a partner – as well to assure each new guest as to the quality and purity of the space they are entering, we ask that all participants in a couples float be aware of the following appropriate use of the service, and enter into this mutual agreement. We thank you and look forward to providing you with an amazing experience.

What Couples Floating <u>Is</u> :	What Couples Floating <u>Isn't</u> :
Intimate Connection Time	Sexual Connection Time
A Silent Reflection Space	A Place for Conversation
Zero Gravity	A Sensory Deprivation Experience
Excellent for first-float hand holding support	

I/we understand that:

- A Couples Float is explicitly *not* a sexual experience
- Is a generally silent activity and not a time for conversation that might disturb other floaters in nearby rooms
- Does not promise the same benefits as solo floating
- That the float tanks are visually inspected between every single session

I/we understand that *any* evidence or observation of sexual activity or other inappropriate use of the space inconsistent with this agreement will result in a cleaning or sanitization fee of \$250, which will be automatically charged to my card.
